# **Board votes to request Fed dollars now**

The CISD Board of Trustees voted to join other Texas school districts in sending a message to state legislators encouraging them to use the \$18 billion in federal relief funds as it was intended--to recoup costs associated with the COVID-19 pandemic.

Trustees called for legislators to transfer the money now so that schools can start the work of remediation and intervention for our students without complex administrative strings attached.

The funds would be used for intensive summer tutoring programs; preparations for rigorous, small group instruction next school year; preparations for student support needs to address the physical and mental health effects of the pandemic and updates and supplies to ensure students have clean and safe classrooms.

Legislators reduced the amount of state aid provided to schools when federal aid was given last year.

#### Parent speaks on hazards of prolonged mask use

Patricia Cifuentes questioned the prolonged use of masks and shared information from Elsevier Public Health Emergency Collection. She stated that "facemasks have compromised safety and efficacy and should be avoided from use" in preventing COVID-19 transmission. She thanked the Board for opening school for face-to-face learning.
